WORK EXPERIENCE

nology: Trainee Software Engineer Jan 2025 – Present

- **Comprehensive Training:** Participating in 8 weeks of intensive, fully funded training with over 300 hours of coding, focused on in-demand technical skills including HTML, CSS, JavaScript, TypeScript, TDD, React, and Java.
- **Practical Industry Experience:** Working on real-life client projects, applying best practices in software engineering, and building confidence for industry roles in Software Development, Cloud, Testing, Data, and Business Analysis.
- **Technical and Soft Skills Development:** Gaining expertise in technical concepts while enhancing collaboration, communication, and technical interview skills through personalised support and mentorship.

Outlier.AI: Freelance AI Trainer Aug 2024– Present

- **Optimised Generative AI Code Models:** Enhanced large language model (LLM) performance using reinforcement learning from human feedback (RLHF), achieving a 20% accuracy improvement in code generation and logical output.
- **Advanced Prompt Engineering:** Designed and executed 200+ complex prompts and coding scenarios, improving AI comprehension and reducing error rates by 15%.
- **Cross-Language Expertise:** Evaluated and ranked AI-generated code in languages such as Python, Javascript, and SQL, achieving a 15% error reduction and ensuring high-quality, multi-language outputs.
- **Collaborative Model Training:** Partnered with data scientists and AI trainers to refine model training processes, cutting iteration time by 10% and enhancing the efficiency of code evaluation workflows.
- **Effective Project Management:** Successfully managed 10+ concurrent projects with a 100% on-time delivery rate, consistently balancing high accuracy and quality standards.

Optegra Eye Healthcare: Marketing Executive Oct 2022 – Aug 2024

- **Data-Driven Customer Engagement:** Conducted market research and analysed 150+ consumer reports and Google Analytics data, improving customer engagement by 15% through targeted campaigns.
- **SEO and Web Performance Optimisation:** Enhanced website performance metrics using Google Analytics and SEO strategies, reducing bounce rates by 12% and increasing uptime to 99%.
- **Efficient Website Management:** Maintained and optimised the WordPress website, ensuring consistent functionality and accessibility for a growing customer base.

EDUCATION

IT Career Switch || Remote June 2024 – Present

Full Stack Software Engineering Traineeship

- **Comprehensive Technical Training:** Completed 200+ hours of training in languages such as, HTML, CSS, JavaScript, and Python, building strong foundational front-end and back-end development skills
- **Framework Exploration:** Developed practical experience with React, Node.js, Express, and Bootstrap, creating responsive and high-performance web applications.
- **Database Management:** Gained hands-on experience with databases such as, MongoDB and SQL, learning efficient data handling and integration in full-stack development.

University of Essex || Essex, England

Oct 2017 – May 2021

Diploma of Higher Education in History

- **In-Depth Research:** Conducted 25+ research projects, analysing historical events, socioeconomic factors, and crisis response strategies, achieving top marks in three modules.
- **Critical Analysis:** Explored works of 20+ influential historical thinkers, honing skills in structured argumentation and critical thinking through essays and reports.

SKILLS

-
- HTML, CSS, SCSS JavaScript, Java Python; React, Node.js; Git, Github; SQL; API testing, debugging; AI & Machine Learning (RLHF, LLMs, prompt engineering); Code optimisation; Front-end & back-end development.
